Q. What are the 3 most important rules for Q. What does A.B.C. do for me?

A. 1. Your advertising message should be newsy, iendly, informative, easy to read. Give facts and news about your merchandise and

profitable newspaper advertising?

2. Advertise regularly. Make your advertising do what successful salesmen do-call on customers and prospects consistently.

8. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

(A. Is there a measure for the value of news-) paper circulation to an advertiser such as the standards a merchant uses in buying merchandise-for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the Audit Bureau of Circulations.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of, each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation. where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.O.

A. No. Only those with paid circulation. This is, important to advertisers because it is evidence that the paper is wanted and read,

Q. Is this newspaper a member of the Audit

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C.

nation European atmy marshaled their defenses in the National Assembly today after Premier Pierre Mendes-France refused to delay the crucial debate any longer. Opening the treaty debate vesterday, Mendes-France maintained his on-the-afence attitude regarding the European Delense Community Part but he coked off source of tempts to stall discusison and cleared the way for the pro-EDC faction to have its say. Former Premier Rene Mayer was the first to accept the challenge with an preent plea for adoption of the treaty. With 69 more speakers to be heard from, the debate is expected to last at least

There appeared some 'chance that before voting to ratify or reliect the treaty, the Assembly would ask Mendes-France to seek new concessions from the other five prospective members of the alliance - Italy, West Germany, Belgium, the Netherlands and Luxd mooungm Mendes-France failed to get the changes he wanted in his talks with the other five foreign ninisters at Brussels earlier th In his three-hour speech yester 200 Arkansans

Q. What are the 3 most important rules for Q. What does A.B.C. do for me?

A. 1. Your advertising message should be newsy, iendly, informative, easy to read. Give facts and news about your merchandise and

profitable newspaper advertising?

2. Advertise regularly. Make your advertising do what successful salesmen do-call on customers and prospects consistently.

8. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

(A. Is there a measure for the value of news-) paper circulation to an advertiser such as the standards a merchant uses in buying merchandise-for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the Audit Bureau of Circulations.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of, each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation. where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.O.

A. No. Only those with paid circulation. This is, important to advertisers because it is evidence that the paper is wanted and read,

Q. Is this newspaper a member of the Audit

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C.

nation European atmy marshaled their defenses in the National Assembly today after Premier Pierre Mendes-France refused to delay the crucial debate any longer. Opening the treaty debate vesterday, Mendes-France maintained his on-the-afence attitude regarding the European Delense Community Part but he coked off source of tempts to stall discusison and cleared the way for the pro-EDC faction to have its say. Former Premier Rene Mayer was the first to accept the challenge with an preent plea for adoption of the treaty. With 69 more speakers to be heard from, the debate is expected to last at least

There appeared some 'chance that before voting to ratify or reliect the treaty, the Assembly would ask Mendes-France to seek new concessions from the other five prospective members of the alliance - Italy, West Germany, Belgium, the Netherlands and Luxd mooungm Mendes-France failed to get the changes he wanted in his talks with the other five foreign ninisters at Brussels earlier th In his three-hour speech yester 200 Arkansans

Q. What are the 3 most important rules for Q. What does A.B.C. do for me?

A. 1. Your advertising message should be newsy, iendly, informative, easy to read. Give facts and news about your merchandise and

profitable newspaper advertising?

2. Advertise regularly. Make your advertising do what successful salesmen do-call on customers and prospects consistently.

8. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

(A. Is there a measure for the value of news-) paper circulation to an advertiser such as the standards a merchant uses in buying merchandise-for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the Audit Bureau of Circulations.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of, each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation. where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.O.

A. No. Only those with paid circulation. This is, important to advertisers because it is evidence that the paper is wanted and read,

Q. Is this newspaper a member of the Audit

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C.

nation European atmy marshaled their defenses in the National Assembly today after Premier Pierre Mendes-France refused to delay the crucial debate any longer. Opening the treaty debate vesterday, Mendes-France maintained his on-the-afence attitude regarding the European Delense Community Part but he coked off source of tempts to stall discusison and cleared the way for the pro-EDC faction to have its say. Former Premier Rene Mayer was the first to accept the challenge with an preent plea for adoption of the treaty. With 69 more speakers to be heard from, the debate is expected to last at least

There appeared some 'chance that before voting to ratify or reliect the treaty, the Assembly would ask Mendes-France to seek new concessions from the other five prospective members of the alliance - Italy, West Germany, Belgium, the Netherlands and Luxd mooungm Mendes-France failed to get the changes he wanted in his talks with the other five foreign ninisters at Brussels earlier th In his three-hour speech yester 200 Arkansans

Q. What are the 3 most important rules for Q. What does A.B.C. do for me?

A. 1. Your advertising message should be newsy, iendly, informative, easy to read. Give facts and news about your merchandise and

profitable newspaper advertising?

2. Advertise regularly. Make your advertising do what successful salesmen do-call on customers and prospects consistently.

8. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

(A. Is there a measure for the value of news-) paper circulation to an advertiser such as the standards a merchant uses in buying merchandise-for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the Audit Bureau of Circulations.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of, each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation. where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.O.

A. No. Only those with paid circulation. This is, important to advertisers because it is evidence that the paper is wanted and read,

Q. Is this newspaper a member of the Audit

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C.

Q. What are the 3 most important rules for Q. What does A.B.C. do for me?

A. 1. Your advertising message should be newsy, iendly, informative, easy to read. Give facts and news about your merchandise and

profitable newspaper advertising?

2. Advertise regularly. Make your advertising do what successful salesmen do-call on customers and prospects consistently.

8. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

(A. Is there a measure for the value of news-) paper circulation to an advertiser such as the standards a merchant uses in buying merchandise-for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the Audit Bureau of Circulations.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of, each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation. where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.O.

A. No. Only those with paid circulation. This is, important to advertisers because it is evidence that the paper is wanted and read,

Q. Is this newspaper a member of the Audit

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C.

Q. What are the 3 most important rules for Q. What does A.B.C. do for me?

A. 1. Your advertising message should be newsy, iendly, informative, easy to read. Give facts and news about your merchandise and

profitable newspaper advertising?

2. Advertise regularly. Make your advertising do what successful salesmen do-call on customers and prospects consistently.

8. Insist on audited circulation reports that give you the FACTS about the audience that your sales messages will have when you buy newspaper advertising.

(A. Is there a measure for the value of news-) paper circulation to an advertiser such as the standards a merchant uses in buying merchandise-for example, like STERLING on silver?

A. Yes—in the well known circulation standards of the Audit Bureau of Circulations.

Q. What is the A.B.C.?

A. The A.B.C. is a cooperative, non-profit association of 3,450 advertisers, advertising agencies and publishers in the United States and Canada. Organized in 1914. Brought order out of advertising chaos by establishing a definition for paid circulation, rules and standards for measuring, auditing and reporting the circulations of newspapers and periodicals.

A. At regular intervals one of the Bureau's large staff of experienced circulation auditors makes a thorough audit of the circulation records of, each publisher member. The results of each audit are published in an easy-to-read A.B.C. report for your use and protection when you buy newspaper advertising.

Q. What are the FACTS in A.B.C. reports?

A. A.B.C. reports tell you how much circulation. where it goes, how obtained and other FACTS that help you buy advertising as you would make any sound business investment—on the basis of known values and audited information.

Q. Are all publications eligible for A.B.O.

A. No. Only those with paid circulation. This is, important to advertisers because it is evidence that the paper is wanted and read,

Q. Is this newspaper a member of the Audit

A. Yes. We are proud of our circulation. We want you to know the FACTS about the audience your selling messages will have when they appear in these pages. Ask for a copy of our latest A.B.C.

Bread Sliced Thin by The Editor **Education the Hard** Way -- Spelling and

Grammar Are 'Musts' There is a man down at Southern lethodist university by the name of E. L. Callihan, and Mr. Callihan, head of the department of journal ism, is writing a book which must giving the educational world a of anxiety. Mr. Callihan's book is going to ell college students how to learn spelling and grammar. As our trade publication, Editor Publisher, reports:
"That will make a lot of college teachers wince. Spelling and elementary grammar traditionally

are beneath the dignity of higher education. College freshmen pre sumably know how to spell. For olleges and universities to teach the fundamentals is an admission of lowered standards.
